

Title	(RETRACTED – SEE PCN09007) EOL for Motorola iO270 wireless module
Affected Products	ZyWAN-IDEN
PCN #	PCN09006
Date	October 5, 2009

Summary

Motorola, Inc. has announced a product end of life for the Motorola iO270 wireless module that is used in Eurotech's ZyWAN-IDEN1000 product and product variants. As a result, Eurotech is offering several last time buy options for affected customers.

Impact

Because there is currently no replacement for the Motorola iO270 module, customers will have to submit last time buy orders for complete units or modules under bonded stock.

Description of Product Change

There are no changes to the product. Motorola does not currently have another module to replace the iO270. Motorola has stated that they are looking at a new platform for iDEN. Once there is an alternative, Eurotech will look at migrating to the new platform.

Effective Date

Product change notice effective date is October 5, 2009.

Recommended Action

The last time buy of the iO270 wireless module from Motorola is scheduled for December 1, 2009 with the modules being built and shipped from Motorola by May 31, 2010. Customers have two options with regards to last time buy.

Option 1:

Eurotech will accept orders that are in-house by November 15, 2009 for Eurotech ZyWAN-IDEN1000. The last time buy order for your Eurotech ZyWAN-IDEN1000 product must be placed by November 15, 2009.

Option 2:

For customers that cannot order complete hardware sets in this timeframe (perhaps due to budget considerations), Eurotech will purchase the iO270 module under bonded stock per your requirements in minimum lots of 100 pieces. The last time buy order for the iO270 module alone must be placed by November 15, 2009 in minimum lots of 100 pieces.

Eurotech will ship ZyWAN-IDEN product ordered in the last time buy order by May 31, 2010, in minimum lots of 10.

For customers ordering Motorola iO270 bonded stock modules and/or ordering at least 100 ZyWAN-IDEN units, Eurotech will support shipments of ZyWAN-IDEN1000 units through December 31, 2010.
